In August, field crews will be conducting sanitary sewer smoke testing in selected areas of the District located within the North Sewer Service Area. the testing, you may see this "smoke" coming from vent stacks on buildings or from holes in the ground. Don't be alarmed. This simulated "smoke" is safe and non-toxic, has no odor, is non-staining, does not create a fire hazard, and should dissipate quickly. *To learn more, please click on the image!*

ENVISION THE FUTURE OF SAMMAMISH

Coming Fall 2021

What do you want Sammamish to look like in 2044? The Community Visioning Project aims to reach residents and stakeholders throughout the City to better understand the vision for Sammamish's future. Input will be used to update the City's vision statement; an aspirational description of the future, highlighting the community values. The vision statement is important because it is one of the tools used to decide how City goals and policies need to be changed as part of the Comprehensive Plan Update starting in early 2022. *To learn more and to take a quick poll on the best way for you to provide input, please click on the image!*

Community Van

The Community Van Program has recently received a third van from King County Metro to be used for local and regional trips by the community. The new van is parked at Klahanie Park and is now available for trips. *For more information or to request a trip, please click on the image!*

Each year the City's Planning Commission and City Council consider updates, amendments or revisions of the Comprehensive Plan and the Sammamish Municipal Code development regulations. The deadline for requests is 5:00pm on August 2nd. For more information or to submit a docket request, *please click on the image.*
