ABOUT CLEARING & GRADING

Before you begin any work, you must obtain a Clearing & Grading Permit or a Site Development Permit (unless explicitly exempted by SMC 16.15.050). Any activity within critical areas or their buffers (per SMC 21A.15.195) CANNOT be exempted and will always require a permit. State Environmental Policy Act (SEPA) review may also be required.

Slope of cut & fill surfaces can't be steeper than what's safe for the intended use and can't exceed a ratio of 2 horizontal to 1 vertical, unless approved by the Director. For most areas, clearing and grading activity may occur between May 1-September 30.

CLEARING & GRADING EXEMPTIONS
PER SMC 16.15.050 EXEMPTIONS INCLUDE BUT ARE NOT LIMITED TO:
<ul style="list-style-type: none"> - Excavation authorized by a Building Permit. - Maintenance of existing driveways, lawns, and landscaping. - Removal of non-significant trees. - Routine maintenance of existing single-family drainage. systems that does not exceed 50 cubic yards. - Excavations of 10 feet. (see Figure 1) - Fills of 5 feet. (see Figure 2)
